**INSTITUTE OF APPLIED  
METAPHYSICS (I AM)**

As Pastor of the United Fellowship Chapel, I am pleased to announce the opening of the Institute of Applied Metaphysics on Saturday, February 25th at 12 Noon.

Today we find ourselves in a period of global change where each one of us is summoned to fully recognize our core beliefs and manifest our truth through action. Spirit is directing us to respond to challenging situations with real understanding and true compassion. As we accept responsibility for our part in the creation of the events that surround us, we can transform the fear and self blame that seem overwhelming.

The Institute of Applied Metaphysics (I AM) seeks to ignite the Light and Love that reside within each one of us through classes that teach useful, practical applications of metaphysical thought and understanding. With instruction and guidance, these principles will become a metaphysical toolbox or magic bag of tricks that you can use to create solutions to any life issues that concern you. You can learn about and register for the various classes that will be offered starting in March and speak with students who have attended them. We look forward to seeing you!

# CELEBRATION OF SPIRIT

*Submitted with Love by Rev. Dorothea Nobile*

Spirit comes from Latin, meaning “spiritus,” or breath. The life giving principle is breath, without breath to animate our bodies, we would not exist on this Earth Plane. Spirit is our I AM Presence, our individual and inseparable connection to the God that resides within us all. It is a flow of thought that surfaces independent of reason. The development within us of a greater capacity to know ourselves and to understand the purpose of our creation. Our God Within is the seat of the perception of the things that we see, hear and feel. We are Spirit, Soul and Body. Our Divine Spirit unites our Soul and Body with breath and they become one.

January is a good month to think about clearing out what you don't want to make room for what you do want in your life. While we're creating space for new things, it's important for us to recognize and celebrate what we have and who we are at this present moment. We often spend much time encouraging and supporting important people in our lives, yet neglect to acknowledge and truly enjoy what *we* bring to these relationships.

Let's resolve to recognize and celebrate the Divine Spirit within us that guides us in all of our Thoughts, Words and Actions.

# CELEBRATION OF SPIRIT

This month, the theme of our talks is the Celebration of Spirit. Here are some quotes:

“I don't have time to beat myself up over my fallible nature. Instead I use my energy to learn from my past and let it inform my future. It's time to own all of our glory, mistakes, mess and light and be gentle to ourselves. Let's be kind to our spirits and celebrate the truth of our hearts.”  
– *Grace Gealey*

“Celebration is an active state, an act of expressing reverence or appreciation . . . Celebration is a confrontation, giving attention to the transcendent meaning of one's actions.”  
– *Abraham Joshua Heschel*

“Never hanker for others to make your life beautiful, orchestrate your life and celebrate in your own aliveness. That's HEAVEN, that's Godliness!”  
– *Ramana Pemmaraju*

“The more you praise and celebrate your life, the more there is in life to celebrate.”  
– *Oprah Winfrey*

“We reveal to ourselves and others what is important to us by the way we celebrate.”  
– *Noël Piper*

“Celebrate Yourself. You are Unique!” – *Izey Victoria Odiase*
